First International Enneagram Association Conference in Paris, April 2013, 12th to 14th

Enneagram and transmission

The IEA was founded in 1994 in the United States by a group of eminent Enneagram teachers (Maria Beesing, David Daniels, Theodore Donson, Andreas Ebert, Russ Hudson, Kathy Hurley, Patrick O'Leary, Helen Palmer and Don Riso). The mission of the IEA is to promote the use of the Enneagram in the world in order to develop greater excellence in the use, theory, and application of the Enneagram in an international community that welcomes diversity of approach. IEA France became an affiliate in April 2011 to pursue the efforts of the IEA Global in France.

Paris will be the location of the first IEA Conference organised by IEA France in April 2013. We are happy to welcome some of the world's leading Enneagram experts for the occasion, as well as newcomers. A number of presentations and workshops will be available in a variety of fields such as : psychology and personal development, business and coaching, education and arts, spirituality, medicine and healing, movement and somatic arts.

Annick de Souzaenelle will open the conference and give us a flavor of her experience and great knowledge as psychotherapist, theologian, lecturer and writer. She has worked for over 40 years on a new approach of the Bible. Inspired by the Kabbalah, depth psychology (Jung) and the Orthodox Christian tradition, she demonstrates how the Jewish and Christian Scriptures are a revelation of the "ontological laws" at the core of the human being.

We are pleased to announce three exclusive sessions that will be dedicated to three very special speakers:

Russ Hudson, author and co-author with the late Don Riso of many books and one of the principal scholars and innovative thinkers in the Enneagram world ;

Tom Condon, author of many books, CDs and DVDs, Tom has artfully integrated Enneagram, NLP and Ericksonian Hypnosis ;

Mario Sikora, known as an author, for his use of the Enneagram with leaders and as the 2011/2012 president of the IEA Global.

In the heart of Paris : Montparnasse area
